**The United States Department of Education does not recognize emancipation of a Mississippi resident\* as being valid to establish independent student status for the purpose of receiving Federal Financial Aid.**

1. A copy of a court's decision that as of today you are an emancipated minor,

**OR**

2. A copy of a court's decision that you were an emancipated minor before you reached the age of majority (being an adult) in your state.

\*NOTE: The U.S. Department of Education does not recognize emancipation of Mississippi residents as valid consideration for independent student status because Mississippi's code § 93-19-1, sometimes referred to as the "Removal of Disability of Minority" may be granted to Mississippi residents under the age of majority (21) for purposes concerning real estate only (i.e., selling, leasing, entering into contractual agreements, etc.). The terms of Mississippi's code **do not** indicate the revocation of parental rights, or other circumstances for which the U.S. Department of Education would consider a student "independent" from their parents (i.e., a severed or broken relationship between minors and parents). Mississippi students under the age of 21, granted emancipation in Mississippi, are **still required to include parent information on the FAFSA** unless they would meet any of the other independent status criteria as indicated on the FAFSA.
